

**SHINING  
LIGHT ON  
THE  
SPECTRUM**

A Free Awareness Event Presented by:  
**Jeanne Marron, Ph.D.**  
**Jennifer Kunert, LPC**  
**Lauren Lawson, M.A., Ed.S., LPC**  
**Special Guest Panel**

In recognition of "April as Autism Awareness Month"  
West Bergen Mental Healthcare and Bergen Community College are hosting a Free  
Awareness Event on

**WEDNESDAY, APRIL 28, 2010, 7 – 9 P.M.**

**Moses Family Meeting & Training Center, Technology Education Center  
Bergen Community College, 400 Paramus Road, Paramus, NJ. Parking Lot B**

***Shining Light on the Spectrum: Increasing Awareness of the Five Pervasive Developmental Disorders*** will present to the audience an overview of the 5 Pervasive Developmental Disorders (PDDs) with special emphases on Asperger's and Autistic Disorder. Learn more about the various symptoms and associated features found in **Asperger's and Autism** from Dr. Jeanne Marron, Clinical Director of Asperger's Related Services at West Bergen. Gain a glimpse of what it is like to have significant social challenges as Jennifer Kunert and Lauren Lawson moderate a panel of adolescents and adults who will share their first hand experiences of difficulties and triumphs. Time will be set aside for questions from the audience.

If you are already familiar with the PDDs or have first hand experience, then bring a family member, friend, colleague, coach, educator, employer, neighbor or someone who may cross the path of individuals on the spectrum and benefit from this FREE presentation. Given the rates of PDDs in this geographical area, that means just about anyone!

**Please register by calling Kelly Doyle at 201-934-1160 x. 7231 or e-mail her at: [kdoyle@westbergen.org](mailto:kdoyle@westbergen.org).**
